Demise Of “India’s Missile Man”-June 27th -2018

- The afterglow of glorious sunsets colour the horizon with flaming hues.
- **Dr. A.P.J. Abdul kalam** was a man who dreamed and whose passion in life was to inspire others to dream. Tribute to this Missile Man was paid by the Students of Shree Bharath Vidyaashram on his 3rd Death Anniversary. He was a great Scientist, Thinker and is the 11th President of India.
- One of his best remembered quotes is about dreams as well. He said “*Dream is not that which you see while sleeping it is something that does not let you sleep* “.

Friendship Day - 3rd August 2018

The biggest relationship in this world is Friendship. Friendship is rare. So keep it with care so that it grows. These proverbs are common. Friendship develops between two persons where there is love. Usually the friend is the mirror to another. We should see our friends both in times of joy as well as in sorrow. For a person who stands by you during bad time is your real friend. As they say “*A friend in need is a friend indeed*”. A friend is given by God. A friend is like a beacon light during your dark days. To have a friend with a heart of love is more than one can actually ask for. A friend is really precious gem hidden in the dark caves of the ocean.

“ LUCKY IS THE MAN WHO IS BLESSED WITH A TRUE FRIEND”

***“FRIENDS AND FLOWERS
ARE MUCH THE SAME
WHEN THEY ARE TOGETHER
SOMETHING BEAUTIFULL HAPPENS.
THINKING OF YOU IS LIKE
REMEBERING THESE BEAUTIFUL MEMORIES
ALL AT ONCE.”***

Interschool Competition – 3rd August 2018

*“Be active like ants,
Try to work with your hands.
Don't take help from others,
Do the work that is yours.
Take some time to play,
Don't waste playing with day.
Spend your time in concentration,
Not always in imagination.”*

Market Day- 28th August 2018:

We celebrated MARKET DAY at SHREE BHARATH VIDHYAASHRAM on Friday. The school was all set for the marketing day, the idea behind the market day is to set vegetables and fruits market by the children which also had selling activity .The concept of market day is to make the kids understand the importance of agriculture cultivation , transportation and selling goods to the end customers , here the end customers were their parents.

The students were formed in a group and each group was divided into 4 to 6 students of LKG and UKG classes. They were given vegetables and fruits to sell. The students displayed the fruits and vegetables neatly and legibly this impacted them the knowledge of making good presentation. There was a kid named as banker who acted as a banker for the day, the banker was handling dummy rupees which was denominated as Rs 1, 5 , 10 respectively . The parents collected dummy rupees from the banker and did shopping the parents was allowed to get as much as money they can they were not restricted in the amount to be got. They collected the money form the banker and did vegetables and fruits shopping. They went shop to shop were our kids displayed their vegetables and fruits.

Many parents participated in this event , saw their kids selling vegetables and fruits. The event was highly appreciated by the parents they enjoyed watching their kids into action. We also provided paper bags to the parents for purchasing the vegetables and fruits which was a sign of plastic ban in the society, as social interest and creating awareness to the parents.

Thus the market day ended with high energy of practical knowledge to the students and parent. The parents was much experienced and motivated us to come up with more events like this.

IMPACT OF COMPUTER GAMES ON YOUTH

Some Years ago, when children talked about games , it meant team games like football , cricket , hockey , basketball , shuttle tennis and the like. But today games are more or less dominated by computer games in the minds of youngsters.

Many claim that computer games improve coordination, attention, concentration and problem – solving skills. It also enhance memory, helps in multitasking capability and can also be used as excellent teaching tools. Let us accept these facts that they are very good for the brain.

Let us now look at some of the negative effects.

- Very young children are also exposed to the world of computer gaming. So there should be supervision of the parents while the children are playing the game as to what type of game is played , amount of time one spends on computer games have to be limited.
- There are studies which show that video games can lead to aggressive behavior.
- Another difficulty with video games is that parents rarely spend time with their children.
- They lose the chance to spend quality time with their kids and of course they lose the chance to understand what type of behavior change is occurring in their children because of the video games they play.
- They also become dumboxes glued to the screen.

So my sincere advice and appeal to parents to spend some of their valuable time with the children in moulding their character to become great futuristic citizens for the society.

Time of destiny:

Whatever happened on yesterday or past better do not continue to next day.

The next day is given to live happily and not to do the same mistakes happened on yesterday or past.

The wiser use the opportunity of the next day. The fatuous will think about the past.

But your present action will change your future and also make you forget your past.

Choose whether you're a wiser nonentity..!
